ORDER:

The Project Director, Tamil Nadu Health System Reform Program has informed that Tamil Nadu Health System Reform Program is a World Bank supported project implemented by Department of Health and Family Welfare (DoH&FW) of Tamil Nadu Government on Program for Results (P for R) basis. The program claims at achieving SDG 3 target by ensuring health lives and promising wellbeing for all at all ages in Tamil Nadu. The total budget of the program is 287 million US\$ over a period of 5 years which will supplement the overall budget of Government of Tamil Nadu in health department of 4,990 million US\$ in next 5 years to achieve the results. The loan agreement was signed on 04.06.2019 and the effectiveness date is declared as 29.07.2019. In the Government Order first read above, the Administrative Sanction of the project was accorded. The Goal of the Project is to improve quality of care, strengthen management of non-communicable diseases and injuries, and reduce inequities in reproductive and child health services in Tamil Nadu. The project is being implemented and the first-year activity carried out from July 2019 to March 2020. In first year, all the disbursement linked results were achieved and disbursement claimed to the World Bank of USD 5,20,23,500 and the

budget allotted for the first year activity was sanctioned in the Government Order second read above.

2. The Project Director, Tamil Nadu Health System Reform Program has forwarded the proposal approved by the State Empowered Committee headed by the Chief Secretary towards implementation of the second year activities of Tamil Nadu Health System Reform Program for strengthening of full Antenatal Care as detailed below:

Antenatal care (ANC) services are primary functions of the primary health care delivery system, which aims a healthy society and is a component of continuum of care for controlling maternal morbidity and mortality. One of the important components of Safe Motherhood Initiative is the provision of full Antenatal care to all pregnant women which can be achieved by early antenatal registration. Full Antenatal care denotes at least four Antenatal care visits, at least one TT injection, and taken IFA tablets or syrup for 100 or more days. The aim is to increase the Antenatal care coverage from baseline 28.8% to 36.3% in third year and 41.3% in fifth year and to achieve this, he has proposed the following with the details of the cost:-

- i) To Train and sensitize Village Health Nurses (VHNs) on integrated Antenatal care and for data management
- ii) To strengthen Pregnancy and Infant Cohort Monitoring and Evaluation (PICME) cell to track missed out cases and migrant mothers.
- iii) To improve the Information, Education and Communication (IEC) for early Ante Natal registration.
- iv) State level critical Review Meeting to track progress of the activities related to Antenatal care.
